- What is the significance of climate risk insurance (CRI) in the context of agricultural insurance solutions and Loss & Damage?
- How can climate risk management be improved by integrating insurance and what is the role of the private sector?
- How can yield loss assessment fill the gaps for crop micro insurance schemes in order to stabilize smallholder farmers' incomes and decrease the vulnerability of the food production system?
- What is the opportunity for the G7 InsuResilience Initiative to change the paradigm that how poor & vulnerable communities manage climate risks?
